A plate with a QR code and an NFC chip that allows your customers to leave reviews in the Google search engine.

After scanning the code or placing the phone, the page is displayed.

A plate made of METALEX / engraved content (we will design any graphics according to your suggestions) with built-in NFC and engraved QR code

ATTENTION

NFC that are not password-locked can be programmed by anyone who is nearby and has access to the programming application. If a stranger sets the NFC password, they are unrecoverable!

Before you allow the NFC chip to be used, you must:

1. download the application to your smartphone (with the NFC reading option)
2. set a password
